

Solo II PV

Photovoltaic energy display

The Solo II PV

Make PV work harder for you

The Solo II PV won't just make you more efficient, it will reduce payback time and alert you to the best times to turn on high-load appliances. The Solo II PV is the best way to make the most of your PV panels.

See earnings now and savings over time

Visual reassurance of panel performance at home or away

Signals when to use your high-load appliances

Become efficient, reduce payback time

Online stored generation history using energynote®

Smartphone access: check data on the move

Much more than numbers: speed graphics and a full colour screen

In-home temperature displayed
